

## WEEK 3 S.T.E.M. FUN!

I am so excited to bring you some Easter/Spring Themed Activities.  
I would love to see pictures of your projects!

I hope you have a great week!

-Mrs. Blair

Jblair@wlstigers.org

These are some great Lego activities! The one on the left is an easier egg to make. The Lego eggs on the right are a little more challenging!

The next 4 activities come from this website! They are...

- ★ Salt Painting Patterned Eggs- This is a great activity to practice patterns.
- ★ Plastic Egg tower-Build a tower and measure how tall it is!
- ★ Spinning Eggs- Put some dough in an egg and spin. Time how long it spins!
- ★ Eggcellent Weight Mystery!- Use beans or something inside your eggs and see if you can guess the weight. With permission, use a kitchen scale to weigh the items.
